Manufacturer GHG Reduction Target Aligned with Climate Science

1.5 degree scenario (1.5C)

	Base year (2022)	Most recent year (2023)	Target year (2032)	% Reduction to date	% FLA Adjustment	% SBT reduction
Scope 1 emissions (tCO2e)	204	55	43	73.04%	28.29%	78.69%
Scope 2 emissions (tCO2e)	371	339	184	8.63%	Not required	50.40%
Scope 1+2 emissions (tCO2e)	575	394	227	31.48%	10.04%	60.44%

Near-Term Scope 1 SBT Formulation

Near-Term Scope 2 SBT Formulation

Near-Term Scope 1+2 SBT Formulation

Ace Computers commits to reduce Scope 1 emissions 78.7% by 2032 from a 2022 base year.

Ace Computers commits to reduce Scope 2 emissions 50.4% by 2032 from a 2022 base year.

Ace Computers commits to reduce Scope 1+2 emissions 60.5% by 2032 from a 2022 base year.

GHG Emissions Reduction Target:

This document provides Ace Computer's publicly declared GHG emissions reduction target aligned with climate science at the corporate level.

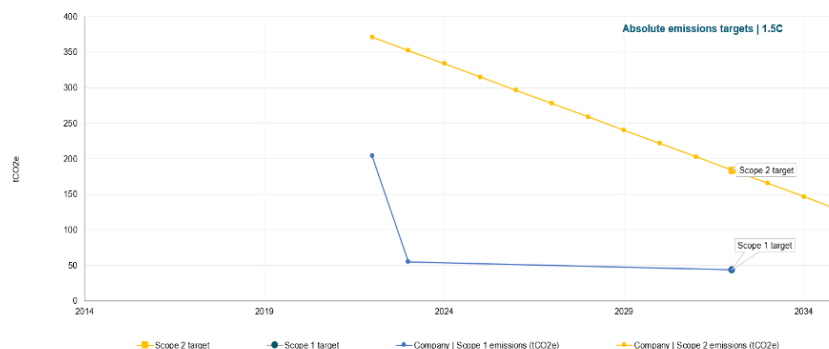

We are declaring Scope 1 & 2 targets aligned with climate science as an absolute average annual linear reduction of at least 4.2% of Scope 1 and 2 emissions from the Baseline year of 2022 to the target year of 2032.

Additionally, Ace Computers has declared MSME status to our ecolabel EPEAT and, as such, does not make any SBTi declaration of Scope 3 targets at this time.

This document is being posted publicly in good faith, to our GHG reduction target(s) which will include public reporting on our average annual reduction; and will demonstrate Ace's calculated corporate GHG inventory, in accordance with EPEAT criterion 4.1.2. This document is accessible at:

<https://acecomputers.com/company/sustainability-computer/>

Report produced in Nov. 2024 using most recently available data.

Assessment & Evaluation:

Scope 1 & 2 Calculations were modeled using the SBTi Target Setting Tool. These calculations were developed using the absolute contraction approach. The targets were established based on Near-term Scope 1 & 2 SBT formulation.

Total reduction of Scope 1 emissions of 204 tCO2e from the baseline year of 2022 to 43 tCO2e for the target year 2032 for a % SBT of 78.69%.

Total reduction of Scope 2 emissions of 371 tCO2e from the baseline year of 2022 to 184 tCO2e for the target year 2032 for a % SBT of 50.40%.

As a MSME declared company, Ace Computers makes no SBTi validation at this time.

Ace Computers has evaluated these calculations and commits to reduce Scope 1 & 2 to the best of our ability as an MSME integrator.
